He has experience of dealing with complex high value claims, including those involving brain injury and serious orthopaedic injuries.

Daniel is praised for his calm and reassuring manner and is frequently instructed in cases requiring a sensitive and client-focussed approach, including Fatal Accident Act cases and a recent case advising a terminally ill and fragile client necessitating a home visit.

Notable personal injury claims include:

- Representing a Defendant in a High Court case concerning the recovery of approximately £10 million of fees relating to personal injury claims – Daniel was successful in having the claim against his client struck out.
- Re GP – Daniel secured substantial damages for a police inspector who suffered a brain injury while deployed to contain a far-right riot.
- Re AS – ongoing claim in respect of a catastrophic brain injury sustained in a road traffic accident.
- K v P – a Fatal Accident case in which Daniel was instructed for the family of the deceased to secure damages following the death of the father in a road traffic accident. The case required detailed and careful consideration of a complicated dependency claim on behalf of a variety of family members with different statuses.

Daniel has extensive experience in inquest work and regularly instructed by NHS Hospital, Ambulance Trusts and overseas corporations in 'Article 2' inquests where systems and procedures are scrutinised in a public forum.
